Dut Doubt Is Expressed Whether Mediation Can Stop Hostilities at Present Stage

Washington, April 28.—While it was declared Gen. Huerta would accept mediation today it is known he is planning to make demands which will be impossible for the United States to consider. The three probable terms he will name will be:

"Withdrawal of American troops from Mexico."

"That there be no negotiations with Villa or other revolutionary leaders."

"Recognition of his Government by the United States."

As none of these conditions can be met by the United States, it is believed that the mediation attempt will fail.

European diplomats in Washington, it was learned today, are pessimistic over the successful outcome of mediation proposals by South American Governments to prevent war with Mexico.

While the action of Great Britain, Germany and France in urging Huerta to accept the good offices proffered by Brazil, Chile and Argentina has an encouraging effect on officials here, there are a few who believe that success can eventuate from the undertaking.

The Spanish Ambassador's advice from Mexico City are such as to warrant him in stating that Gen. Huerta had accepted the proposals of good offices.

The Ambassador is now awaiting the formal and official acceptance, and until this is received the three mediators will not begin their formal session.

Meanwhile the news is being furnished by Senor Riano of Gen. Huerta's purpose and are holding preliminary meetings to consider their line of procedure when the formal acceptance are in hand.

It is stated those who are undertaking exercises for the purpose of doing so without any commitment on their part as to conditions one way or the other.

When the formal acceptance are concluded it is expected that each side will formulate conditions, and it will then be for the mediators to try to find some common ground for agreement.

Just how far these conditions will go—as to an insistence on our side that Huerta be eliminated or as a claim on the other side that he be recognized, as well as the Tampico flag incident and the Vera Cruz situation—remains to be developed as the negotiations advance to a more definite stage.

Latest News From Vera Cruz

Vera Cruz, April 28.—There was rejoicing here today when word was received from the British Minister, Sir Lancelot Glynne, in Mexico City, that Gen. Huerta had agreed to permit all other refugees to leave the capital and that 250 foreigners, including Americans would arrive in Vera Cruz tomorrow.

The previous hope of Americans here who had relatives and friends in the capital had been buoyed up by a statement given out in behalf of Admiral Fletcher that he had information which led him to hope for the early arrival of many American refugees from Mexico City, for the better treatment of all Americans there and possible for their eventual release.

In importance to these developments was the expected arrival of the first of troops commanded by Admiral Fletcher. The soldiers were expected before night fall and the sailors on the battleships along the city front beyond the breakwater eagerly scanned the horizon for the smoke of the battleships which were the transports she was conveying.

Nelson O'Shaughnessy has in his possession a letter from Huerta which is a virtual declaration of war upon the United States. The letter accompanied the passports which were given to the American Charge d'Affaires just before his departure from Mexico City. The letter may yet play an important part in the war, for it would serve as a basis upon which Congress could declare that a state of war exists between the country and Mexico. The substance of the letter has been given to the state department.

O'Shaughnessy came ashore today from the battleship Minnesota, where he remained the night as the general admiral Fletcher. He was accompanied by Consul General Shanklin. The two men were escorted for a long time with Consul Canada. A demand has been made on the German Legation in Mexico City to surrender the arms imported for the protection of the German residents there, according to information reaching here.

Admiral Von Hintz, the German Minister, replied:

"If you set the arms you will have to fight for them."

Lieutenant R. C. Sautley in an aeroplane from the American fleet made a flight over Vera Cruz shortly before noon today. On attaining an altitude of several hundred feet he made a wide circle over the city and then descended over the outskirts and observed the position of Mexican Federal forces.

The foreign Consuls today called in a body at military headquarters and urged the soldiers to bring about a complete truce, and promising their co-operation, or at least their moral support. The Consuls were assured that there was no intention to subject the residents much to the danger of bullets from sniping. It was decided that hereafter all American marines and blue jackets shall be withdrawn from all roofs, except at a few designated points, such as church towers, and that the patrols shall be instructed to shoot to kill any other individuals seen on any other roof after 7:30 o'clock in the evening.

The patrols also will be instructed to surround and search any house from which bullets are fired, and any person guilty of indulging in this practice. It is realized that much of the trouble has been caused by the idle and vicious element, and prisoners of this class will be held in some building or inclosure in the outskirts and will be compelled to do much of the work which is now being done by the marines and blue jackets.

Refugees arriving today from Mexico City on the train leaving the capital.

Farrar or Mount Two Favorites in Betting But Others are Hopeful

The chief topic of discussion among politicians at Lancaster these days is the disposition of the postoffice. The question is being discussed among the boys are laying wagers with John M. Farrar and J. K. Mount, the two favorites, while L. H. Brown is a hot third choice and his many friends would not be surprised if he were the real dark horse. The race, Farrar has just returned from Washington, and wears a knowing smile, while Mr. Mount's friends are claiming that he has it nailed down. All friends of the candidates are doing a lot of wire pulling and making friends to get to land their favorites. Friends of T. B. Robinson have not entirely given up hope, though news from Washington as shown below, is that he is out of it.

Robinson loses at Lancaster

A dispatch to the Cincinnati Enquirer from Washington Saturday, said: "Washington, April 24.—Thomas H. Robinson, of Lancaster, Ky., who attempted to end his life with a west-bound Chesapeake and Ohio train recently, because of depression caused by the belief that he would not be appointed postmaster at Lancaster, has lost his fight for that office. He recovered, and physically and mentally, but the Postoffice Department declines to appoint him. John M. Farrar, of Lancaster, who is seeking the job, arrived today and was introduced to the Postoffice by Senator James. No conclusion has been reached as to who will be appointed."

Garrard Democrats Endorse Wilson

(Lancaster Record)
Democrats all over the Eighth District, aroused by the impression put out that they were not in sympathy with the administration's policy to repeal the Panama Toll Act, sent a flood of telegrams to President Wilson endorsing his position. It is reported that these telegrams went into the White House from leading Democrats all over the district.

A paper was circulated in Garrard county addressed to the President and endorsing his stand to repeal this measure and congratulating him upon the success of the democratic administration. In a few hours several hundred names had been secured, among those being most of the county officers, all the democratic officials, democratic officials of the various banks and leading democrats to whom the petition was presented. Not a single democrat refused to sign the petition to whom it was presented. It was very manifest that the democratic party of Garrard county is solidly behind the President on his position of repealing the Toll Measure. It is reported that similar papers are being circulated and free signed by democrats in other counties of the District.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by the use of the Myer's Ear Cure. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness results. Unless the inflammation can be taken out and the tube restored to normal condition, the hearing will be destroyed forever. The cure is not a matter of days, but of hours. It is a simple matter to cure deafness, which is nothing but an inflamed condition of the mucous surface. We will give one thousand dollars for any case of deafness (caused by catarrh) that cannot be cured by Myer's Ear Cure. Send for circulars, free.

WOMAN COULD NOT SIT UP

Now Does Her Own Work. Lydia E. Pinkham's Vegetable Compound Helped Her.

Ironton, Ohio.—"I am enjoying better health now than I have for twelve years. When I began to take Lydia E. Pinkham's Vegetable Compound I could not sit up. I had female troubles and was very nervous. I used the remedies a year and I can do my work and for the last eight months I have worked for other women, too. I cannot praise Lydia E. Pinkham's Vegetable Compound enough for I know I never would have been as well if I had not taken it and I recommend it to suffering women."

Daughter Helped Also.

"I gave it to my daughter when she was twelve years old. She was in school and was a nervous wreck, and could not sleep nights. Now she looks so healthy that even the doctor speaks of it. You can publish this letter if you like."

—Mrs. RENA BOWMAN, 161 S. 10th Street, Ironton, Ohio.

Why will women continue to suffer day in and day out and drag out a sickly, halfhearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice, and our letter will be opened, read and answered by a woman and held in strict confidence.

Many Additions to the Order of Ochs

Craig Thomas has been in Stanford for the past few days where he secured a large number of new members for the Danville West of Order of Ochs. He was assisted in getting the new men by Dr. J. T. New Law to Reform School

The population of the State House of Reform at Greendale will be cut one-third, it is estimated by the operation of the new law, fixing the minimum age for commitment at 10 years and providing that if a child between the ages of 10 and 16 years is sent there for offense below a felony, the county must pay the cost of transportation and \$100 annually for keeping him there. About 200 is the average number of children between the ages of 10 and 16 committed for incorrigibility and minor offenses. A number of county judges have inquired where the law goes into effect, which will be June 15.

Prize for the K. P. Fair

The Knights of Pythias of Lincoln county will hold their third annual fair at Stanford August 19, 20 and 21. STOMACH TROUBLES

Mr. Ragland Writes Interesting Letter on This Subject.

Madison Heights, Va.—Mr. Chas. A. Ragland, of this place, writes: "I have been taking Theodor's Black-Draught for indigestion, and other stomach troubles, also colds, and find it to be the very best medicine I have ever used."

After taking Black-Draught for a few days, I always feel like a new man. Nervousness, nausea, heartburn, pain in pit of stomach, and a feeling of fullness after eating, are sure symptoms of stomach trouble, and should be given the proper treatment, as your strength and health depend very largely upon your food and its digestion.

To get quick and permanent relief from these ailments, you should take a medicine of known curative merit. Its 75 years of splendid success, in the treatment of just such troubles, proves the real merit of Theodor's Black-Draught. Safe, pleasant, gentle in action, and without bad after-effects, it is sure to benefit both young and old. For sale everywhere. Price 25c.

"The Greatest Kidney Remedy on Earth," Says a Grateful Woman

I want to tell you how much good your Swamp-Root did me. About four years ago, I suffered from what the doctors called fistula and for two years of that time, I endured what no tongue can tell. I also had inflammation of the bladder and I tried doctors' medicines without receiving any help. Someone told me about Dr. Kilmer's Swamp-Root.

After giving it a thorough trial, I received relief, so keep on using it until today I am a strong and well woman. I never feel badly or out of sorts. I take Swamp-Root and it always straightens me out. I honestly believe that this medicine would cure all troubles you recommend it for and it is a pleasure for me to send my testimonial and photograph to you. I think Dr. Kilmer's Swamp-Root is one of the greatest medicines on earth.

Respect yours,
MRS. JNO. BAILEY,
West Main St., Portland, Ind.

It will save you and your family endless hours of hard labor in pumping, sawing, grinding, spraying, running separator, etc.

Buy an IHC engine. They last longer, burn less fuel, are simpler, and give you most power. Here are a few of the reasons: Offset cylinder heads, large valves, accurately ground piston and rings, heavy drop forged crank shafts and connecting rods, etc. Best material and construction mean the best engine. IHC engines are built in all styles, and in all sizes from 1 to 50 H. P. They operate on low and high grade fuels.

Two Great Stallions

Standing at Hustonville
I will stand the two great draft horses WATZMAN and FRENCH for the season of 1914 at my farm near Hustonville, at the low sum of \$10 each to insure a living colt.

WATZMAN is an imported German coach horse. He sold for \$3,000 originally. I have used him two seasons and his colts show for themselves what he can do, all coming large size and with lots of style. His colts show too well what he does, to need an extended description.

French is a Percheron, and a Company horse originally and sold for \$2,400. I bought him in Metcalf county, where he has done splendid work in the stud. He produces splendid colts, the big stylish fellows with fine bone and shape. He will attract attention anywhere and is the kind of a breeder owners of mares are looking for. He weighs 1,800 pounds and gets colts like him.

I also have two or three fine, big mule breeding jacks which I will also stand at \$12 and \$10.

\$5,000 Cattle Deal in Marion County
A cattle deal involving almost \$50,000 was consummated recently when Fox O'Daniel & Co., of Lebanon, sold to parties in the East 550 head of cattle which the firm had been shipping at the distillery of Mueller, Wathan & Robert. Twenty cars in Marion county were shipped from Lebanon. The shipment was made to the New York butchers' Dressed Beef Co. The price received for the cattle by the Lebanon firm is said to have been \$7.50 per hundred pounds, and as it is believed they will average 1,150 pounds, each it will be seen that the deal will amount approximately to \$50,000.

Feel It Heal.

"When you swallow Dr. Bell's Pine-Tar-Honey you can feel it heal. It soothes and soothes the raw spots."—says Dr. J. M. Reid.

That's Dr. Bell's way of saying it, after thirty years of experience. Can you say it better? Dr. J. M. Reid knows the honey.

Finest Pear Tree in the World

The most valuable fruit tree in the world, so far as can be learned, is an avocado, or alligator pear tree, owned by H. A. Woodworth, who lives on a two acre orange ranch at Whittier, Cal. The tree is insured against damages by wind or fire with Lloyds of London for \$80,000. During the year 1912 it yielded its owner a profit of \$8,000. The tree is enclosed by a stone fence thirty feet high, which the insurance company requires Mr. Woodworth to maintain.

Seven years ago the tree sprang from the seed of an avocado that was growing wild in the highlands of Mexico. Burr Ridenour, a Los Angeles county nurseryman, planted the tree on his ranch, and when it was three years old he sold the tree to Mr. Woodworth, a retired Wall Street broker.

Nobody suspected that the tree would prove the money-maker it is. The average alligator pear tree does not come into bearing until it is eight or ten years old. Mr. Woodworth's avocado began bearing in its fourth year. During the fifth year it produced \$1,700 worth of fruit and laid wood. In its sixth year it gave up \$3,200 worth of fruit and laid wood. \$1,500 of which was derived from the sale of alligator pears at the rate of \$6 a dozen, and \$1,702 came from the sale of buds at from 10 to 20 cents apiece.

Where Will Feeders Get Cattle?
Unless there is a drought this summer there will be no feeder cattle on the market of the Valley Farmer. It seems that Mexico and Canada will both be out. A big crop would further increase the need of cattle for feeding nearly 50 per cent over the fall demand of 1913. Some feeders are buying cattle now before they take on a grass fall, some are holding off on account of high prices, and still others are waiting for the opening of summer to get a line on the feed situation. In a year following a drought there is always greater economy in preserving feed. This in itself ought to be insurance of large supplies of feed for 1915.
